

Caracal, Romania

Production, maintenance and refurbishment of freight wagons on a surface area of 114,000 square metres.

The location of Caracal is Astra Rail's most recent addition. The factory nonetheless has a history going back to the year 1973. In the 40 years since then, more than 70,000 freight wagons have rolled off its production line, largely destined for export to the CIS countries, France, the Czech Republic, Hungary and Slovakia. With a covered area of 114,000 square metres, Astra Rail's Caracal factory is one of the large freight wagon manufacturing facilities in the world.
