

STUDENT CONTEST DYNAMIC OF VEHICLES - „PROF. C. GHIULAI”,**NATIONAL PHASE FIRST EDITION**

On 23 and 24 October 2014 a National Student Seminar was held in Craiova on the topic of vehicle dynamics. The seminar was organized by the University of Craiova – Faculty of Mechanics – Department of Vehicles and Transportation with the co-organizers: Technical University from Cluj-Napoca, Polytechnic University from Timisoara, University of Pitesti, University of Transylvania from Brasov, University of Oradea and Polytechnic University from Bucharest

The seminar was attended by 28 representatives of students and teachers from the most significant Universities in Romania.

The seminar had as its main activity the dissemination of information on the dynamics of vehicles with the purpose to achieve some common points in the educational structure of universities and student research groups formed within them.

At the seminar the project DOROTHY was presented and in the same time the cluster formed in the Oltenia region was presented and explained in order to highlight the importance of the association of several entities to achieve a common goal.

The end of the first day of the seminar coincided with a general knowledge competition about the dynamics of vehicles with the purpose to the importance of collaboration between universities and students.

The second day of the seminar was left for the awarding the attendance with participation certificates and also for giving the winners of the dynamics of vehicles contest the prizes.
